

false_type

```
classDiagram
    class myFunc_is_one_of["myFunc::is_one_of<T, U, i, V>"]
    class false_type
    myFunc_is_one_of --|> false_type
```

The diagram illustrates a class hierarchy. At the bottom is a class box for `myFunc::is_one_of<T, U, i, V>`, which is shaded gray and divided into three horizontal sections. Above it is a class box for `false_type`, which is white and also divided into three horizontal sections. A blue arrow with an open triangular head points from the top section of the `myFunc::is_one_of` box to the bottom section of the `false_type` box, indicating that `myFunc::is_one_of` inherits from `false_type`.

myFunc::is_one_of<
T, U, i, V >
